

RG-RAP1200P

Reyee

Access point Wifi AC1300

Frequency 2.4 and 5 GHz

Transmission speed up to 1267 Mbps

Gigabit switch 4 integrated ports

Installation in mechanism boxes

Reyee

Wifi AC 802.11ac dual band 2,4 and 5 GHz Wifi access point

Supports 802.11 b/g/n/ac Wave1/Wave2 , allows connections up to 1267 Mbps

MIMO technology with two built-in omni-directional antennas

MultiSSID

Gigabit switch 4 integrated ports

Installation in mechanism boxes

Temperature range from 0 to 40°C

Power over Ethernet

Powerful and intuitive operation with the free Ruijie Cloud

Specifications

Brand	Reyee
Ports	4 RJ45 10/100/1000 Mbps + Rear Uplink 1 RJ45 [%VAR%] Gigabit
Wireless standard	WiFi AC (802.11ac)
Transmission speed	Up to 1267 Mbps
Frequencies	2.4GHz & 5GHz
Maximum power transmission	20 dB adjustable
Maximum sensitivity	-92.5dBm@MCS0
Integrated antenna	2x2 Internal Omnidirectional MIMO antennas at 2.4 GHz and 5 GHz
Operating modes	Wireless access point, routing
Security	WPA / WPA2 (AES) / WPA-PSK
SSIDs	Up to 8
Management	Configuration via web interface or remotely with Ruijie cloud app
Downlink Interface	3 LAN ports 10/100/1000Mbps, 1 PoE port 802.3af 10/100/1000Mbps [%VAR%]
Installation	Mechanism box
Power	PoE IEE802.3af 8W / 23,4W If PoE Out Port is used
Operating temperature	0 °C ~ 40 °C
Dimensions	126 x 86 x 50 mm
Weight	240 g
